Knowledge Sharing Program:

It has been a splendid 2023-24 with your support and expect the same in upcoming 2024-25 as well.

As you know, **Speciality Innotech Private Limited** is a quality manufacturer and exporter of **cast polyurethane products**, right from its inception in 1991. Over the years, we have distinguished ourselves from the competitors primarily through our design competence. This design competence coupled with manufacturing experience and emphasis on quality has helped us to provide **appropriate Solutions to various Problems**.

As a part of our promotional efforts and social responsibility, we are equipped to deliver a presentation to your team (design, engineering, installation etc.) on Polyurethane (PU chemistry, its typical usage, do & do not etc.) and vibration isolation solutions under our Knowledge sharing programme.

Tentative time line for the same will be as below.

- Presentation on Polyurethane & VIS: @ 45minutes
- Question / answers after presentation - @ 20 min
- Discussions on any specific items if any - @ 10 min

Thus it will be around 75 to 90 minutes' programme.

We are confident, it will be useful for your team in existing as well as upcoming projects.

Please communicate with us on puneoffice@spinpl.com if you wish to carry out this for your team.
